## SUMMARY

---

Undergraduate Software Engineering student at APIIT, Sri Lanka, with a strong foundation in software development, databases, and networking. Proficient in Flutter (Dart), PHP, MySQL, C#, Python, and JavaScript, with experience in web and mobile app development. Skilled in OOP, Git, RESTful APIs, and debugging, with practical knowledge of Docker, cloud deployment, and NAS systems. Familiar with networking, cybersecurity, and system architecture. Adaptable, problem-solving oriented, and eager to apply technical expertise in full-stack development, DevOps, or cybersecurity projects.
